Hritik Varma

FULL STACK JAVA DEVELOPER

Email: varmahritik@gmail.com | Phone: +91 9081732392 | Address: C/81 Ishwarkrupa Soc., Arbudanagar, Odhav, Ahmedabad - 382415 | GitHub: github.com/hritikvarma17

PROFESSIONAL SUMMARY

- Passionate and dedicated Full-Stack Java Web Developer and BCA graduate with 4.5 years of experience as a Desktop Support Engineer. With a strong foundation in Object-Oriented Programming, Core Java, Spring Boot, and database management, I specialize in turning complex logic into efficient, user-friendly web applications. Eager to contribute fresh perspectives, write clean code, and grow within a dynamic development team.

SKILLS & ABILITIES

PROGRAMMING & BACKEND

- Core Java, Java Swing, Spring Boot, Servlet, JSP, Thymeleaf, Hibernate ORM

FRONTEND TECHNOLOGIES

- HTML5, CSS3, JavaScript, jQuery, Bootstrap

DATABASES & TOOLS

- MySQL, MySQL Workbench, Eclipse, Apache NetBeans, VS Code

IT INFRASTRUCTURE

- Desktop Support, Hardware Troubleshooting, LAN/Networking, CCTV/NVR Configuration, Zabbix Monitoring

PROJECTS

STUDENT MANAGEMENT SYSTEM | FULL STACK JAVA WEB APPLICATION

- Developed a comprehensive web application for institutional administration featuring staff directory management, student portal navigation, attendance tracking, and role-based access control.
- Live Preview Link: Student Management System

JUNIOR DEVELOPER WORKBENCH | FULL STACK JAVA DESKTOP APPLICATION

- A full-stack Java desktop application named **DevTrack**, a junior developer workbench featuring active sprint ticket tracking, pre - pull request code review guardrails, a Pomodoro focus timer, a daily standup generator, and an offline error solution vault integrated with MySQL.
- Download Link: DevTrack

PORTFOLIO | WEBPAGE

- Developed a responsive single-page portfolio showcasing full-stack web and desktop applications, featuring structured project cards and direct live demo and download links.
- Live Preview Link: Portfolio

INVENTORY MANAGEMENT SYSTEM | FULL STACK PHP WEB APPLICATION

- Developed a web-based inventory control system named **Stock Control** (College Project) featuring real-time stock tracking, low-stock alerts, automated barcode generation, dispatch history with logging, and role-based access control.
- Link: Stock Control

WORK EXPERIENCE

DESKTOP SUPPORT ENGG. | SURYAJIT PUBLICATION PVT | JUNE 2020 TO JAN 2025

- Worked 4.5 years in SURYAJIT PUBLICATION PVT as a desktop support engineer resolving hardware faults, troubleshooting network issues, maintaining IT infrastructure, managing peripherals, and delivering seamless technical assistance to ensure high user productivity.
- Provided comprehensive technical support for desktop systems, ensuring timely resolution of hardware and software issues. Diagnosed and troubleshooted technical problems, reducing downtime and improving user productivity.
- Installed, configured, and maintained operating systems, applications, and peripheral devices. Planned, designed, and installed Local Area Networks (LAN) to meet organizational requirements, ensuring reliable connectivity. Configured network hardware, including routers and switches to optimize performance.
- Installed and configured CCTV to ensure comprehensive surveillance coverage and security. Also configured NVR systems for efficient recording and playback of surveillance footage.
- Successfully led multiple teams in organizing and executing online events with multiple training sessions, ensuring smooth coordination and effective communication. Developed and implemented strategic plans to achieve event goals.
- Implemented and managed Zabbix for comprehensive network and server monitoring in intranet network, ensuring optimal system performance and uptime. Configured and customized Zabbix (Monitoring tool) to meet specific organizational needs, including setting up triggers, actions, and notifications.
- Led the planning and execution of various administrative tasks for events, ensuring smooth operations and successful outcomes.

EDUCATION

BACHELOR OF COMPUTER APPLICATIONS (BCA) | 2022 – 2026

- Completed a rigorous academic program in Bachelor of Computer Applications (BCA) from Indira Gandhi National Open University (IGNOU), passionate in core computer fundamentals, object-oriented programming, and structured web layouts with modern styling. Developed a real-time inventory management web app project featuring automated stock level tracking, barcode generation, dispatch history logs, and secure user authentication.

FULL STACK JAVA DEVELOPER - CERTIFICATION | 2026

- Certified as a Full-Stack Java Developer, demonstrating proficiency in enterprise web architecture, database integration, and dynamic frontend interfaces. Built web projects from scratch, diving deep into Java ecosystems, database management with MySQL, and responsive frontend design architectures.
